

Coronavirus Covid 19 is an ongoing problem and the Committee are taking the matter very seriously. We consider the safety of our members and our staff to be of the utmost importance and we will not tolerate any breaches of the social distancing rules.

Please only sit at a table with people from your own social bubble and remain at your table whenever possible. Do not visit other people's tables and please remember to give other members room as you walk around the club.

We have not implemented a one-way system for using the toilets because we believe that if members are sensible a one way system is not needed, but please give other people room at doorways and in corridors.

Do not queue closer than 2m from the person in front at the bar and please be patient as you are waiting to be served.

The above systems have been put in place in line with government guidelines. Bars, pubs and clubs that have not conformed have been closed down, we do not want that to happen to ours.

Please stay safe and keep everyone else safe too.
